KVM SMALL

WEYTEC switchingPLATFORM

KVM with basic functionality

WHY WEYTEC

KVM LIGHT SOLUTION

... with intuitive, real-time control of sources using the EK Light keyboard

The **WEYTEC switchingPLATFORM (WSP)** provides users with real-time access to computers and information sources. It integrates analog, digital, legacy and third-party systems, cameras and video walls within a single, independent IP network. Neither software nor driver installations are required. Users interact with all their relevant sources using the EK Light keyboard.

The WSP is designed for 24/7 operations.

- Based on KVM IP extenders
- Intuitive control with EK Light keyboard
- Switching solution for up to four desks
- Any source on any screen
- Redundant configuration
- Share, view and control every source on every desk
- Sound from displayed sources is audible
- "Source in use" indication
- Video wall integration
- Upgradable to WEYTEC distribution-PLATFORM

Benefits

|			
Computers secure & efficiently maintained in server room	More space without computers under the desk	Cost-effective KVM IP extenders	An EK Light keyboard & mouse for one or more computers
Up to 4 desks	Up to 4 monitors per desk	Flexible switching between up to 32 computers and 4 desks	Integration of one video wall

MADE IN SWITZERLAND

User Access

Operate the WSP with an EK Light, a multifunctional keyboard with programmable keys. Assign and display up to 32 sources on a maximum of 4 monitors using WS keys. Change the sources displayed on the video wall using presets or the web-based video wall editor. Route audio signals from up to four sources to speakers or a headset.
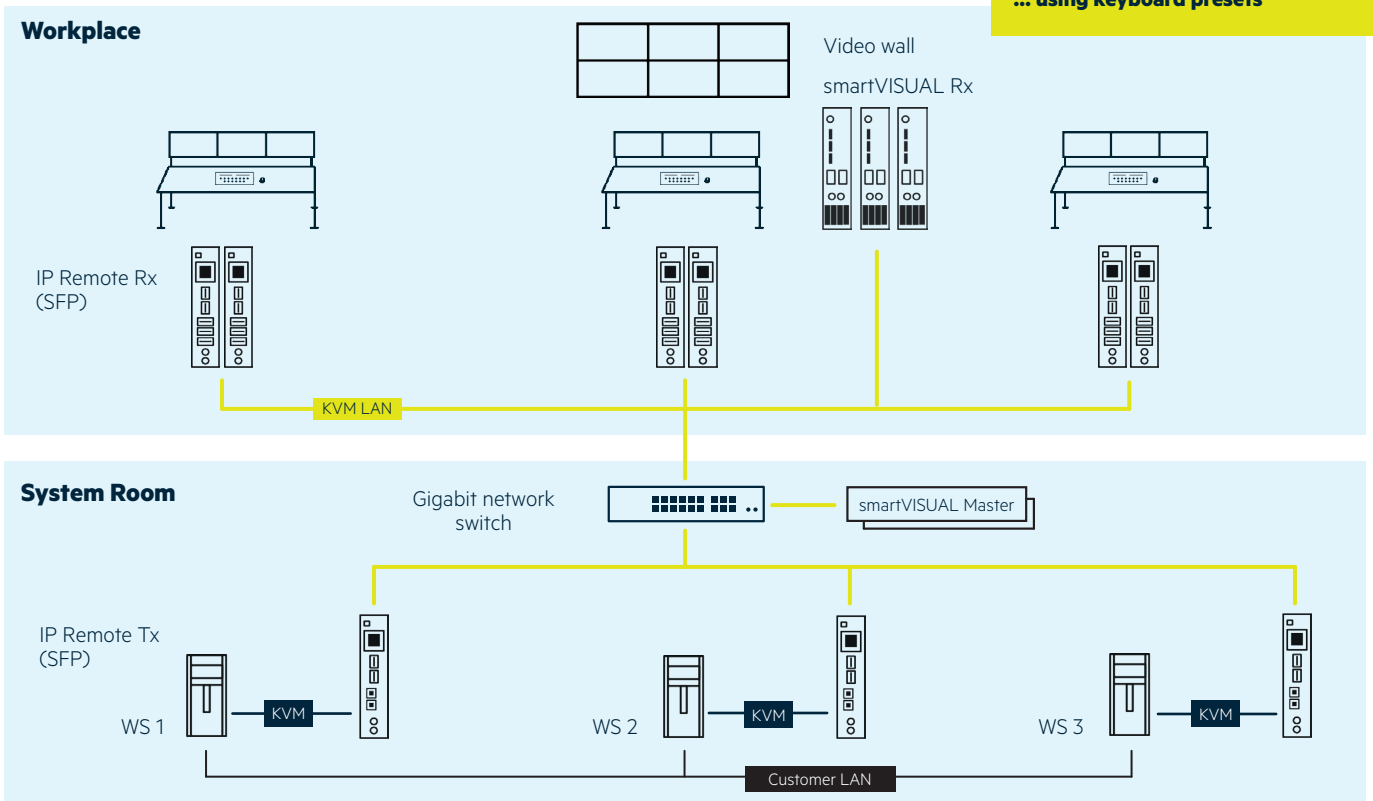

Use Case

Sources can be displayed, controlled and assigned to monitors at all desks. The EK Light keyboard indicates when a source is in use. Use presets in combination with smartVISUAL receivers to control a video wall with the keyboard.

WHY WEYTEC

CONTROL A VIDEO WALL

... using keyboard presets
